The Legal 500

We offer a wide range of legal services both for corporate and private clients. Here are some of our recent notable tasks we have performed for our private clients:

A Russian citizen may open a USD account with a Laos bank without leaving Moscow and obtain a payment card to make payments to foreign jurisdictions when traveling abroad or online. The account allows conversion from Russian ruble accounts to USD to be deposited to a Laos account.

OPENING CORPORATE BANK ACCOUNTS IN CHINA, TURKEY AND OTHER COUNTRIES

We assist with opening corporate accounts in various friendly jurisdictions (with certain limitations) which can be used to make payments under foreign trade contracts and to fulfill other corporate obligations. Depending on the country, an account can be opened and used for banking operations without the need to be present in person.

REGISTERING A COMPANY IN CHINA, HONG KONG, VIETNAM, INDIA AND OTHER COUNTRIES

We provide support to our clients with setting up companies in China, Hong Kong and many other countries, including an option to open bank accounts and make payments under contracts, for goods and services. Due to our extensive international partner network, CLS can provide legal support in over 90 countries and help our clients invest and protect personal and corporate assets.

We offer the best options for effectively organizing and structuring business operations and personal (family and migration) issues of our clients. We also assist with immigration and family issues.
